

5208 Bridger Park Court Subdivision: Bridger Park

FROM SPEC TO SPECTACULAR! Our designer and listing agent, Danna Johnson, recently returned from Design Week with the 411 on the hottest trends and newest products for 2019 and we have incorporated them into this gorgeous 4 bedroom and 2 bath home. Weather may have delayed our photos but you will not want to miss out on seeing this open floor plan that will feature colors and products that can be seen for the 1st time in Jonesboro. Here are a few of the details you will get to see; exterior brick painted repose gray with wooden accents, inlaid marble and stone tile in the master shower, matte black bathroom fixtures, luxurious champagne gold hardware and fixtures in the kitchen that accent the rich green color of the island that has been painted with one of 2019 color of the year choices, hickory hardwood and an antique wood mantle just to name a few.
